

AISHWARYA VENKAT

+1 (202) 651-0979 | aishwarya.venkat@tufts.edu | aish-venkat.github.io | [LinkedIn](#)

PROFESSIONAL SUMMARY

Experienced geospatial analyst studying food systems resilience and climate-food-health nexus. Strengths include spatiotemporal alignment and data wrangling in Python and R to extract novel interdisciplinary insights. Subject matter expertise in remote sensing applications for food security and agriculture, extreme weather measurement, acute malnutrition seasonality, diet costs and affordability, and famine early warning.

EDUCATION

- Friedman School of Nutrition Science and Policy, Tufts University** *May 2024*
PhD, Agriculture, Food, and Environment
Dissertation: Climate and Health: Extreme Events, Food Systems, and Nutrition
- School of Engineering, Tufts University** *May 2018*
MS, Environmental and Water Resources Engineering
Certificate in Water Systems, Science, and Society
Thesis: Sub-Basin Valuation of Groundwater in California, 2000-2016
- Virginia Polytechnic Institute and State University (Virginia Tech)** *May 2014*
BS, Biological Systems Engineering
Secondary Major Certificate, French

SKILLS

Spatial analysis: R, Python, ArcGIS, QGIS, Geoda, Google Earth Engine
Statistical and econometric modeling: R, Python, Stata
Languages: English (fluent), French (advanced), Tamil (advanced), Hindi (advanced)
Other: Activity management, training, critical thinking, interdisciplinary communication

EXPERIENCE

- Consultant, The Micronutrient Forum** *2023-2023*
Developed and drafted literature review of climate hazard measurement in nutrition
Performed analysis of extreme weather events and stunting and wasting outcomes
- Research Assistant, Food Prices for Nutrition Research Group at Tufts University** *2020-2022*
Conducted comparison of least-cost diets using WB ICP data and 11 dietary guidelines
Contributed analysis and evaluation of Cost of Healthy Diet metric for SOFI 2020-2022
Developed technical tools to facilitate calculation of Cost of Healthy Diet

Research Assistant, Feinstein International Center at Tufts University	<i>2018-2020</i>
<p>Conducted analysis of anthropometric and climatological data to contextualize acute malnutrition trends in Kenyan drylands</p> <p>Performed study of short-term (1990-present) and long-term (1900-present) seasonal patterns of climatic indicators in the Darfur region and links to farmer-herder violence</p>	
Research Assistant, Center for Humanitarian Change	<i>2019-2019</i>
<p>Studied alignment of Integrated Phase Classification (IPC) and Household Hunger Scale (HHS) in SMART contexts with survey data from 336 households</p>	
GIS Lab Assistant, Data Lab at Tufts University	<i>2014-2018</i>
<p>Assisted students and faculty with geospatial projects</p> <p>Created and updated metadata for geospatial datasets</p> <p>Designed and led <i>Intro to QGIS</i> and <i>Mapping Open Data in R</i> workshops</p>	
EcoHealthNet Research Exchange, EcoHealth Alliance	<i>Summer 2017</i>
<p>Collected data on commercial poultry production and live markets in seven countries for the <i>African Sustainable Livestock 2050</i> project</p> <p>Generated network diffusion models from World Bank LSMS and USAID DHS surveys</p> <p>Identified continental drivers of emerging infectious diseases using geostatistical models</p>	
Analysis Intern & Consultant, International Water Management Institute	<i>2016-2017</i>
<p>Evaluated target and actual progress across all WLE programs in 2015 and 2016</p> <p>Mapped impact pathways and identified evidence gaps</p> <p>Documented activities, goals, and targets for the 2015 and 2016 WLE Annual Reports</p>	
Water Program Intern, Ceres Inc.	<i>Fall 2015</i>
<p>Analyzed water risks in food, beverage, agriculture and oil and gas sectors</p> <p>Developed data analyses and visualizations related to California drought</p>	
Research Assistant, AidData at the College of William and Mary	<i>Summer 2015</i>
<p>Harmonized climate and demographic covariates for geospatial impact evaluation of indigenous lands project in the Brazilian Amazon</p>	
Independent Consultant	<i>Spring 2015</i>
<p>Implemented vulnerability analysis to identify communities with low supply and high demand of basic human services in Jalisco, Mexico</p>	
GIS Intern, City of Medford, Massachusetts	<i>Spring 2015</i>
<p>Updated stormwater and sewer geodatabases, developed work maps</p>	

Matched areas of highest cholera incidence with responders in Haiti and DR
Compiled congressional briefs, contributed to H.R. 2901 Water for the World Act

TEACHING ACTIVITIES AND ASSISTANTSHIPS

- UEP 294: Spatial Statistics, Tufts University (Spring 2019)
- Tufts University GIS Data Lab Assistant (Fall 2014 – Spring 2018)
- EN 1: Applications of Climate Change Engineering, Tufts University (Fall 2016)
- CEE 194: Intro to GIS, Tufts University (Summer 2016)
- ENVR-S 171: Water, Health and Sustainable Development, Harvard University Extension School (Spring and Summer 2016)

HONORS AND AWARDS

Outstanding Recent Alumni, Virginia Tech College of Agriculture and Life Sciences 2020
N. Bruce and Lorry Hanes Endowed Fellowship 2016
United States Geospatial Intelligence Foundation Scholarship 2015
J. Lawrence & Lucille G. Calhoun Scholarship, 2013

VOLUNTEER ACTIVITIES

2023 Tufts University Famine Forecasting Hackathon

Collaborated with interdisciplinary team of conveners to compile presentations and datasets, designed [website](#), facilitated analysis and discussions with two global teams

Co-Chair, 2018 Nutrition Data Summit

Coordinated with student volunteer committee to plan sessions, invited and scheduled panelists and plenary speakers, managed event logistics, designed website and program
